

# ILCC COVID-19 Survey

Please have your institution's Commission on Cancer (CoC) Cancer Liaison Physician and/or Cancer Committee Chair complete the following survey to the best of their ability.

Your responses to this survey will remain confidential and will not be shared publicly.

If you have any questions please email [info@ilcancer.org](mailto:info@ilcancer.org).

Thank you!

## COVID-19 General Questions

---

Has your hospital admitted patients with COVID-19?

- Yes  
 No

---

What was the approximate date of your first COVID-19 admission?

---

Which Restore Illinois phase of the COVID-19 pandemic is your geographic region currently in?  
<https://coronavirus.illinois.gov/s/restore-illinois-introduction>

- Phase 1: Rapid Spread  
 Phase 2: Flattening  
 Phase 3: Recovery  
 Phase 4: Revitalization  
 Phase 5: Restored

Which setting of COVID-19 response is your hospital currently in?

- Semi urgent setting: (preparation phase) Few COVID-19 patients but expecting more, hospital resources not exhausted, institution still has ICU vent capacity, COVID trajectory not in rapid escalation phase.  
 Urgent setting: Many COVID-19 patients, ICU and ventilator capacity limited, operating room supplies limited.  
 Highest acuity setting: Hospital resources are all routed to COVID-19 patients, no ventilator or ICU capacity, operating room supplies exhausted.  
 Recovery setting: COVID-19 patient volume stable or decreasing, available operating room supplies, elective cases and outpatient services being restarted.  
 Normalized setting: We have returned to normal (pre-COVID-19) operations.

### COVID-19 Guidelines and Resources

Our hospital has provided guidance (e.g., resources and protocols) regarding how to care for cancer patients during the COVID-19 pandemic.

- Strongly agree  
 Agree  
 Neutral  
 Disagree  
 Strongly disagree

### Our hospital/cancer center has an effective plan for transitioning back to normal care in the following areas:

	Agree	Disagree
Medical Oncology	<input type="radio"/>	<input type="radio"/>
Radiation Oncology	<input type="radio"/>	<input type="radio"/>
Cancer Surgery	<input type="radio"/>	<input type="radio"/>

Outpatient Oncology Clinics

---

What guidelines or resources is your institution using to help guide decision making around the care of cancer patients (select all that apply)?

- Government guidelines (e.g., CDC recommendations)
- Professional society guidelines
- Webinars or other educational sessions related to treatment of cancer during the COVID pandemic
- Guidance from your health system
- Other

---

If other, please describe:

---

---

Has your institution faced personal protective equipment (PPE) shortages (select all that apply)?

- We have ample supply of all types of PPE
- We have limited supply of at least one type of PPE
- We have been very close to running out of at least one type of PPE
- We have run out of at least one type of PPE
- We have changed standard PPE usage policies (e.g., reusing N95 masks)

---

What other issues with cancer care have been caused by COVID-19 that you would be interested in working on together with other Illinois hospitals (select all that apply)?

- Developing consensus Illinois guidelines/protocols to guide reopening of cancer care
- Developing consensus Illinois guidelines/protocols for scenarios related to recurring waves of COVID-19
- Problems with scheduling outpatient visits (including telehealth/video visits)
- Problems with providing systemic therapy related to COVID-19
- Problems with providing radiation therapy related to COVID-19
- Problems with providing surgical treatments related to COVID-19
- PPE shortages for providers
- PPE shortages for patients
- Other

---
